Open the menu bar and click on the tools menu. Click on the file menu and select the open file option. Click on the open option under the file menu. A dialog box should appear asking for the path to the Autocad 2016.DWG file. Click the browse button and select the appropriate.DWG file. Click the open button. The program should start processing the file and when it has completed you will be prompted to save it. The file is saved in the 'Personal' folder under the Autocad 2015 folder. You can name the file any.DWG file but the name must be similar to the file's

name. Once saved, select the 'Open' option on the file menu. A dialog box should appear where you can select the file. Select the file and click on the open button to start the conversion. /* Copyright (c) 2018-present, SurfStudio LLC.
