Game info: Elden Ring is a fantasy action RPG with sandbox and RPG elements. It is being developed to show off the 5K resolution and are mainly 2D hand-drawn animated in-game characters and graphics. We will have dynamic events, dungeon, grinding system, multiple character upgrades, and character levels; such as 5 starters, and their own skills, equipment, and equipment upgrades. What's more, it's going to be an original story in the Lands Between. Key features: 5 major characters with 5 different tastes and skills. Environments that allows you to explore a large story environment without fighting. For character growth, even after character death, the character's skills will continue to grow. Will you embrace the way of the Elden Ring, or will you succumb to the ways of the Void? The only thing that I learned from this game is that dark rain outside makes things sound a lot worse than it really is... But then again, that's the point The game had a lot of potential, but it seems it was never finished. I mean, it just sorta got abandoned. Maybe if the devs got some help, they could have done a decent game. But the story and all the characters are weak, the gameplay is fairly unexciting, and the main problem is that this game is just too expensive (\$25) and too short (one hour long gameplay) The story is kinda weird, but the characters are nice, and they create an interesting atmosphere. They were just too boring. The gameplay is fantastic, the character designs are really great. Maybe you should make a separate page for each character's story, because the dev team just dumps all their characters in the same page. It's kinda chaotic. There are some problems with the soundtrack. The game starts out and it's very quiet, then suddenly there's this weird sound that sounds like a bird singing. It's really odd. Also the background music isn't what it should be. Overall, it was very good. It's just that the game is very short and doesn't really showcase the potential it had. An excellent start to development. Characters/world design is fantastic and being able to customize your character was pretty fun. The story itself was good and the gameplay
